What are Housing Associations?

Housing Associations are the main providers of new social housing. Registered Social Landlord (RSL) is the technical name for social landlords that are registered with the Housing Corporation*, and together with Harrogate Borough Council they are the major providers of affordable rented housing to people in need in the Harrogate District.

Housing Associations are run as businesses/charities but they do not trade for profit. Any surplus is ploughed back into the organisation to maintain existing homes and to help finance new ones.

*www.housingcorp.gov.uk

How can I get a Housing Association home?

Anyone can apply, but applicants have to satisfy each individual association's letting policy.

Most Housing Associations operate their own waiting lists, so it can be worth contacting them directly, but you should also register on Harrogate Borough Council's own waiting list, as the Council has nomination rights to a large amount of accommodation in the district.
