## What will you see and do at the fairs?

- Stalls full of some of the best reusable, recycled and customised goods available for you to see and buy.
- Workshops and demonstrations where you can learn new skills from rag rugging to jewellery making to upcycling your old clothing.
- Fashion shows showcasing some of the wonderfully unique goods available.

Remember Christmas is coming, so what about buying gifts that won't cost the earth. After attending a workshop you might even want to try making your own gifts!

## What is Choose2Reuse all about?

The Choose2Reuse campaign aims to prevent reusable goods from becoming waste. The campaign promotes different ways of reusing items to stop them ending up in landfill where many of them damage our planet by producing greenhouse gases as they decompose. Choose2Reuse works in partnership with many organisations including charities, crafts people and designers to encourage people to buy second hand or extend the life of everyday items by rethinking or redesigning or repairing and mending.

## How much does it cost to get into the fair?

Entrance to the fairs is absolutely **free**. Once you get in, the workshops, demonstrations and fashion shows are all **free**. How much money you spend at the extremely tempting stalls is entirely up to you - Christmas is coming so why not think about doing some of your Christmas shopping at the fairs.
