Subject: Planning Application

Dear Sir

Ref Planning Application 17/03414/EIAMAJ Kirby Hill Motorway Services

I would like to add my objections to the above proposal for the following reasons:-

- a) Totally unnecessary , there is one at Wetherby and Leeming Bar is to be upgraded. The last time this issue arose and was rejected there wasn't services at Wetherby, so it is needed even less now.
- b) The existing infrastructure cannot cope with such a large development
- c) The amount of additional heavy traffic that would be involved would cause safety and congestion problems
- d) The site would totally change the landscape , the environment, character and history of the area
- e) Prime agricultural land would disappear, too much is already being used for house building in the area.

Thank you
Glenys Midgley
