Dear Mr Parkes

I am writing to object to Applegreen's planning application for a MSA at Kirby Hill. I do not believe there is a need for one as there are already facilities close by, Wetherby which is

a MSA and Leeming Bar services which are due to be upgraded.

The large proposed 43 acre site would affect the landscape and could not be integrated into the

open landscape with out causing great harm to the rural environment.

The visual impact on the local residents would be unacceptable. Congestion problems will arise

on the local roads due to staff and delivery traffic which in turn will create safety problems.

The existing infrastructure, particularly sewerage infrastructure will not cope with such a large

development. The Local economy at Boroughbridge will be damaged by the MSA by taking trade and staff away from the town.

The local community do not want this MSA and have fought against this for over 20 years please respect the wishes of the local community.

Yours faithfully

Jill Brunyee
