Subject:Objection - reference 17/03414/EIAMAJ

Dear Mr Parkes

I write this email to place my objection to the application which has been submitted to Harrogate for Kirby Hill motorway services.

I am frankly outraged that despite similar proposals having being rejected that this development is again being considered. This beautiful open green landscape of agricultural land would be destroyed forever and i implore you to reject this totally unnecessary service area.

Alternative services are already in place at Wetherby there is no requirement whatsoever for services at Kirby Hill. It would be a disgrace and the clock cannot be turned back should the wrong descision be reached.

The visual impact on this much loved area and the impact of increased traffic and pressure on the existing road network is unacceptable for the local residents of the village and local surrounding area.

This is a rural area and the landscape and character would be spoiled and for what reason?

Local people do not welcome this development and i would be grateful of you giving it careful consideration then making the correct decison once again to stop the motorway services.

Yours sincerely

Victoria Nichols

14 Hartley Road
Harrogate
