Dear Sir,

I am writing to stress my objection to the motorway services at Kirby Hill.

This is a totally unnecessary development, there are already services at Wetherby & Leeming Bar.

I live and work in Boroughbridge and feel the town would be damaged by taking away trade & jobs from the town.

I lived in Kirby Hill for 20 years. It is a beautiful village which would be spoilt forever by this development. It could only be harmed by extra traffic in the area and crime and pollution and disruption that this would bring.

The local infrastructure is already struggling to cope with sewage and drainage flooding and this

development would add extra strain.

- Visually this would be unacceptable by both day and night to the local residents.

These are all reasons why I feel I am strongly against the proposal to build a motorway service station at Kirby Hill.

Yours Sincerely

Mrs L. Ambrose.
