CHILD ADMISSION POLICY - REVISED JULY 2004

As from 27 July 2004, one responsible adult (aged 16 years or over) can supervise two children, under the age of 8, when the following conditions apply

- Where one adult supervises two children under the age of 8, all children under 4 years must wear armbands, or appropriate floatation devices at all times.
- All pools will identify a designated shallow area of water where supervision will apply.
- Armbands or floatation devices will not be allowed outside these areas during sessions.
- When one adult supervises one child only aged under 4 years (i.e. on a one-to-one basis) constant supervision and contact with the child is required at all times. Floatation devices are optional and pool use is not restricted. However, when floatation devices are worn both adult and child must remain within the designated area.
- For further information or advice please contact the Pool's Duty Manager.
